EXECUTIVE PROFILE

Technology executive and innovation strategist with 16+ years leading digital transformation, R&D and business growth across enterprise software, AI/IoT and network infrastructure. Owns the full value chain - business analysis, solution architecture, product development, executive presentation and consultative sales - for governments and Tier-1 enterprises across Vietnam, SEA/APAC, MENA and China. Currently deliver digital technologies with **AI-First Digital Transformation** into operating models and automation pipelines, with P&L accountability for a multi-project regional office and a hands-on record as a technology founder. A trusted C-level advisor with a deep network of business leaders, industry associations and university/research partners, and board-ready English built from a genuinely multicultural career.

PROFESSIONAL EXPERIENCE (continued)

LAZINET APPLIED TECHNOLOGIES & HATHYO

Vietnam

Technology Founder

Nov 2023 – Present

- Lead R&D and product delivery across AI, Computer Vision, IoT and Cloud for AgriTech, AquaTech and Well-being E-Commerce ventures.
- Implement and commercialize **HATHYO** e-commerce: seller management, buyer development, smart systems, and support services (payment, shipping, tax invoicing, verification).
- Shipped AI-enabled smart government portals, digital platforms for business associations in HCM (QTBC, BKHN-TSN), AI content/marketing automation (**Ingrid Vietnam**), NFC + AI-chatbot SmartCard product, IoT+AI environmental monitoring, and 3D-AI Showroom (**QTBC**).
- Delivered automotive dealer technology (**WeaveGrid** smart charging & dealership management systems for Hyundai and KIA).
- Built strategic ties with universities in HCM (**HUIT, HCMUT, HCMUS, SGU, UIT**) for research and innovation projects; adjunct lecturer on AI and data science topics.

ENCITY URBAN SOLUTIONS + ENFARM AGRITECH

Vietnam, Singapore

Principal of Digital Technologies & Product Development

Mar 2022 – May 2024

- Formed and led digital technology strategy for ICT planning and urban master planning, including Thu Duc Smart City and Ho Chi Minh City Masterplan 2060.
- Solution-architected and built the product team for **enfarm** AgriTech: IoT hardware R&D from prototype to mass production (sensors, EDA/PCB, LoRa/BLE/WiFi).
- Delivered AI (OCR, pricing models), GIS applications and Workspace/CRM/ERP automation (Python, Apps Script, PowerShell).

HUAWEI TECHNOLOGIES (CHINA, THAILAND)

Shenzhen, SEA, South Asia, MENA

Technical Director / SEA Regional Expert

Mar 2014 – Dec 2021

- Led technical delivery, network planning/design/optimization for RAN & Transmission, presales and bid management for multi-million-dollar tenders with Tier-1 operators across SEA/APAC and global markets (**Telenor, DTAC, Viettel, Vodafone, True, Ncell, Vietnamobile, MPT, Ooredoo, Atom, Mytel, Amara, XL, Tele2** and **Kcell**).
- Technical service delivery and built global expert teams; earlier planning consultancy in Huawei HQ, Shenzhen for offshore projects (**Vivo, Sky TV, Irancell, Visafone**).
- Directed multicultural teams across 10+ countries, coordinating with Shenzhen R&D to localize planning software for regional markets.

EARLY CAREER - NETWORK ENGINEERING & PLANNING (2006–2013)

Aircom International Singapore/ UAE (TEOCO), Senior Planning & Optimization Expert - Vietnam, Sudan, Mauritania, Cambodia, UAE, Afghanistan, Bangladesh (2009–2013): strategic network planning, microwave network design expert, performance management and optimization for **Beeline, Sudani, Chinguitel, Metfone, Etisalat, MTN, Robi** and **Mobifone**.

Mobile Network Planner & Designer (2008–2009): planned and designed the **VIETNAMOBILE** turn-key EGSM transmission network (fiber & microwave), Southern Vietnam.

VNPT-NEC Telecom Systems, Implementation Engineer (2007–2008): end-to-end NEC microwave transmission network deployment for **MobiFone**.

S-Fone CDMA Mobile Center, Transmission OAM Engineer (2006–2007): network operations, administration and performance improvement.

“Combining rigorous engineering logic with a humanistic business vision - building technology that genuinely serves people and enterprises.”
